

**RHYAS Knapsack Sprayer - Shoulder Strap Functions**

THE RHYAS KNAPSACK SPRAYER IS SUPPLIED WITH 2 SHOULDER STRAPS BOTH OF WHICH ARE ADJUSTABLE TO SUITE THE USER IN THE SAME WAY. HOWEVER THE STRAP ON THE LEFT HAND SIDE (SAME SIDE AS THE PUMP HANDLE), ONCE ADJUSTED IS FIXED THROUGH THE LOOP ON THE SPRAYER (AS ORIGINALLY SUPPLIED ) AND **DOES NOT HOOK** BUT IS PERMANENTLY IN A FIXED POSITION

THE STRAP ON THE RIGHT HAND SIDE IS ALSO ADJUSTABLE TO SUITE THE USER BUT ALSO HAS THE ADDITION OF A HOOK.

THE OPERATIONAL FUNCTIONALITY IS THAT ONCE THE SPRAYER IS READY FOR USE YOU ARE ABLE TO PASS YOUR LEFT ARM THROUGH THE FIXED STRAP AND TAKE THE WEIGHT, ONLY THEN REQUIRING THE RIGHT STRAP TO BE PASSED OVER THE RIGHT ARM AND HOOKED INTO POSITION, THUS EASYING THE PUTTING ON AND TAKING OFF OF THE SPRAYER.

LEFT HAND (PUMP SIDE) STRAP FIXED

RIGHT HAND STAP WITH HOOK SHOWING ADJUSTER COUPLER
